

Application of Chen
Application No. 09/667,966

Remarks

By the above amendment, the Applicant has submitted updated drawings to comply with the Notice of Draftsperson's Review included with the Office Action. No new matter was introduced to the Drawings. However, the identification of section view lines that appear in the drawings were updated to comply with standard practice. The amendments to the Specification were made to update the Specification to comply with the change in section line designations that now appear in the drawings.

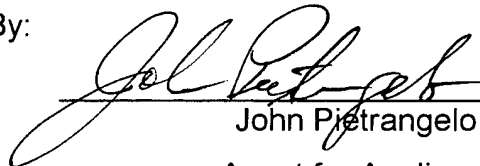

The Patent Office is advised that a typographical error appeared in the Response to Office Action mailed August 30, 2002. On page 3 of the Response under the Amendments and under the heading "In the Claims", the statement should have read "Please delete claims 2, **19**, and **20**" not "2, 18, and 19". This correction is consistent with the amendments that follow this statement.

The Applicant believes that the application is in allowable form. Early passage of the subject application to issue is earnestly solicited. Should any matters remain outstanding, it is requested that the undersigned agent be given a call so that such matters may be worked out and the patent placed in condition for allowance without the necessity of another Action.

Respectfully submitted,

HESLIN ROTHENBERG FARLEY & MESITI
